MEMORANDUM

December 12, 1980

Site:

Break:

TO:

CARL MILLANTI, Chief

Administrative Services Section

THROUGH:

ROSS SINGLETON, Environmental Supervisor

Field Operations Branch

FROM:

ROBERT KOENTOP, Environmental Specialist

Field Operations Branch

SUBJECT:

Treatment System/A. L. Taylor Site

Attached are three copies of job invoices from Payne Electric regarding services rendered on the treatment system at the Valley of the Drums.

Please note the following regarding the invoices:

- No. 5106 During a routine inspection of the treatment system (on December 4, 1980) while it was operating, the blower (which runs the operation system) was not working. Because I could not get it to operate, I notified Payne Electric - this invoice represents their initial service call.
- No. 5107 Because part of the magnetic starter on the system failed, a replacement part was needed. This invoice represents the installation services for that new part.
- 3. No. 1386 During the weekend of December 6, 1980, malfunctions to the operation of the treatment system again was discovered (of a differing nature than the aforementioned problem). Some bearings on the motor appeared to be shot, therefore, the entire motor was removed to be repaired.

Because of the necessity for the blower system to operate properly within the treatment system, I did not hesitate to initiate corrective actions for these problems.

NOTE: Because of Payne Electric's quick response to my requests, I feel as a professional courtesy our Division should equally respond to these invoices.
